## DETERMINATION OF NONSIGNIFICANCE

### Description of Proposal

Schnitzer Steel Industries plans to install a Shredder Emission Control System. This project will remove approximately 215 tons per year of volatile organic compounds from the shredding process. In exchange, the control devices will produce approximately 12 tons per year of nitrogen oxides and 14 tons per year of carbon monoxide. This project will remove Schnitzer Steel Industries from the major source air operating permit program.

### Proponent

Schnitzer Steel Industries  
PO Box 110636  
Portland, OR 97296-0047

### Location of proposal, including street address if any

Schnitzer Steel Industries, 1902 Marine View Dr, Tacoma, WA 98422

### Lead Agency

Puget Sound Clean Air Agency

The lead agency for this proposal has determined that it does not have a probable significant adverse impact on the environment. An environmental impact statement (EIS) is not required under RCW 43.21C.030(2)(c). This decision was made after review of a completed environmental checklist and other information on file with the lead agency. This information is available to the public on request.

This DNS is issued under WAC 197-11-340(2); the lead agency will not act on this proposal before September 11, 2023. Comments must be submitted by that date.
