Owners: Mike Merryfield, Daniel Milette

Dear Puget Sound Clean Air,

Art Brass Aerospace Finishing is requesting a limit to be placed on our hazardous pollutant emission below major source thresholds in accordance with WAC 173-400-091. Calculations are in an attached excel spreadsheet showing that only n-propyl bromide has the potential to exceed major source thresholds based on the recent EPA listed of this pollutant as a hazardous air pollutant.

A handwritten signature in black ink that reads 'Danny Milette'. The signature is written in a cursive, flowing style. Below the signature is a horizontal line.

Daniel Milette, owner
