Dear Mr. Verhaar:

Air Operating Permit No. 21147

Thank you for submitting your Air Operating Permit renewal application on May 18, 2006. Pursuant to WAC 173-401-500(4), the Puget Sound Clean Air Agency's review has shown that the application is complete. In the following months, I will be working on compiling an updated Air Operating Permit for Boeing Commercial Airplane NBF Plant 2, and will forward a draft for your review and comment.

Sincerely,

*Agata McIntyre*
